PROJECTS

Tiny Kitchen | Fullstack Developer | github.com/concernconcern/tiny-kitchen

A web app + Chrome extension that lets you save recipes from any website. The web app features AI that accepts voice commands and reads your recipes to you step-by-step while you're cooking.

- Built out the front-end with React, Redux and styled-components
- Worked on a chrome extension to easily save any recipe on the web to your personal recipe box
- Technologies used: API.ai, Artyom, React, Redux, Material UI, styled-components, Express.js, Sequelize

POPulate | Sole Developer | github.com/kaitmore/populate-chrome-ext

A Chrome extension that visualizes your internet usage on a new tab page

- Uses D3 and jQuery to visualize data on the front end and the Chrome API to gather browsing data
- Winner of the Sigurdsson Design Award for Grace Hopper Academy's Stackathon

EXPERIENCE

District Strings | Co-Owner, Violinist | 2015-PRESENT, WASHINGTON, D.C. | districtstrings.com

- Co-founded a wedding/event business that employs 10 musicians and performs +50 events a year in the DMV region.

Kaitlin Jane Photography | Owner, Photographer | 2007-PRESENT, WASHINGTON, D.C. | kaitlinjane.com

- Built a wedding and portrait photography company that served over 500 clients and achieved consistently high reviews

EDUCATION

The Grace Hopper Program at Fullstack Academy | MAY 2017 - SEPTEMBER 2017, NEW YORK CITY, NY

- 17-week, immersive software engineering program for women with an 8% acceptance rate.
- Over 700+ hours of coursework required to graduate
- Skills taught include computer science fundamentals like algorithms, data structures, object-oriented programming, as well as React, Express.js, Node.js, SQL, HTML & CSS, and test-driven development.

University of Maryland | SEPT 2013 - MAY 2015 | Master of Music, Violin Performance - Graduate Ensemble Fellowship

University of North Carolina School of the Arts | SEPT 2009 - MAY 2013 | Bachelor of Music, Violin Performance
